KOPYTOV DIGITAL

Digital studio and development

Websites, web apps, automation, Telegram bots and browser games.

Portfolio demo presentation

ABOUT US

Who we are

A small digital studio focused on clear, useful products.

KOPYTOV DIGITAL is a digital studio concept. We design and build products for businesses and users.

Our work starts with clear goals, sound structure and ease of use.

FOCUS

Clear interfaces
Practical value
Predictable results

EXPERTISE

What we do

Five formats that can work together in one project.

01

Landing pages

Structure, responsive design and clarity

02

Web interfaces

User portals and workspaces

03

Automation

Forms, workflows and data handling

04

Telegram bots

Chats, requests and alerts

05

Browser games

Interactive mechanics and UI

METHOD

Our approach

From a clear goal to a working solution.

01

Goal

Define goals and requirements

02

Structure

Plan flows and logic

03

Implementation

Build the design and features

Every stage supports the project goal and user journey.

WORKFLOW

Five development stages

Deliverables and review points are agreed upfront.

01

Discussion

Goals and requirements

02

Prototype

Structure and flows

03

Build

Design and features

04

Testing

Tests and fixes

05

Handover

Files and materials

Example project types

Demo project formats, without fictional clients or metrics.

01 **Company website**

Service pages, forms and responsive layout

02 **CRM interface**

Workspaces, statuses and filters

03 **Bot and automation**

Requests, notifications and reporting

04 **Browser game**

Game mechanics, controls and UI

All examples represent demo project categories.

QUALITY CONTROL

Quality principles

We test workflows as well as visuals.

Responsiveness

The interface works on desktop and mobile

Functionality

Core actions are tested

Performance

We consider load speed and responsiveness

Handover

Sources and structure remain easy to update

Let's discuss your needs

Describe your goal and requirements. We'll outline scope, timing and an initial estimate.
